The American City

A Monthly Review of Municipal Problems and Civic Betterment

WINTER SCENE IN CENTRAL PARK, NEW YORK CITY

WINTER TIME

Presents enough hardships and dangers to the Fire Department without their being handicapped by hose shortage or hose troubles.

Has your department *enough* hose?
Is the hose you do have *reliable?*

These are two leading questions which every fire chief and every municipal official having to do with Fire Department purchases must face squarely—or else render himself liable to lifelong regrets if the "big fire" which every department dreads, comes along and the fire force is under equipped with hose or else finds their hose bursting and useless at a crucial moment when the fire is almost under control.

How about YOUR department? Have you enough hose, and is it the dependable kind?

We are under a management of 40 years' experience and are sure of results. Voorhees Fire Hose is the kind you want to have when the big fire comes. Send for our catalogue.

We also make hose for Park Departments
